F. H. DeWitt & Co.
GERANIUM AND
PELARGONIUM SPECIALISTS.
Wooster, Ohio.

TERMS OF SALE

NOT less than six plants at dozen rates or twenty-five at hundred rates, or two hundred and fifty at thousand rates.

All plants offered in this list are well established in two-inch pots.

No charges made for boxes, packing or delivery to express office.

All claims must be made within five days from receipt of goods. We aim, by making each shipment profitable, to get new customers and keep old ones.

C. O. D. Shipments must be accompanied by one-half the amount of the order.

We take all possible pains to keep every variety separate and true to name.

Our packing is done by experienced men. The plants are wrapped in paper with moss at the roots. When the weather will permit they are packed upright in slated crates; in cold weather they are packed in paper-lined boxes in such a way as will carry them safely to any part of the country.

Our terms are cash with order; we do not have time to keep books, and at the price we sell we cannot take any risk.

Pelargonium Novelties

When Easter Greeting Pelargonium was introduced, the prediction was made that it would be the forerunner of a new race of ever-blooming pelar-

goniums, suitable for either bedding out or for pot culture. It gives us pleasure therefore, to offer the following sports of Easter Greeting.

Our Everblooming or Remontant Set of 1913

SWABIAN MAID—(Schwabenmadchen). This new sport of Easter Greeting has large reddish carmine flowers with five very regular black blotches bordered with purpleish carmine. Very effective coloring. Its habit, foliage, robust growth, and everblooming qualities are like its parent Easter Greeting and can therefore be grown either as a pot plant or bedded out.

WURTEMBERGIA—Easter Greeting Sport. Medium sized florets of a bright carmine, with large velvety, sharply defined blotches. Has all the good qualities of its parent. Equally valuable bedded out or as a pot plant.

LUCY BECKER—This grand novelty is a sport of Easter Greeting and is like it in everything but color, which is a rosy pink. It is if anything even more free in bloom.

EASTER GREETING—(Ostergruss) This new, ever-blooming Pelargonium was shown at Mannheim Horticultural show planted out as a bedding plant and bloomed continually until late in

the Fall. It will prove a forerunner of a new race of ever-blooming kinds, and will increase the demand for a plant that rivals the Azalea in beauty. The following description is from the German introducer, Carl Faiss:

"This new species is the earliest of all Pelargoniums with enormous florets and clusters having light green foliage and of dwarf robust growth. It blooms from March until Fall. The florets are of a fiery amaranth red with five regular shaped spots. The first and only kind to bloom as well bedded out as in pots and to do so all Summer. The only kind that stands bedding out in groups."

Nov. 12, 1912, the Ohio Experiment Station, at Wooster, Ohio, has tested Easter Greeting for two seasons as a pot plant and found it to be the freest bloomer in their collection, surpassing any Azalea as an Easter plant. The past season they tried it bedded out and were much pleased with it as a bedder.

Pelargonium Novelties from Carl Faiss

Set of 1913

GRAF ZEPPELIN—Considered by many to be the best novelty yet sent out by Carl Faiss. The color is salmon red and it has equal sized reddish blotches bordered with scarlet. The flowers are of fine form, semi-double and they form gigantic trusses. The habit is compact and the flowers held well above the foliage.

GERMAN GLORY — (Deutscher Ruhm). This splendid novelty is quite remontant, florets and clusters are very large; ground color, *Cattleya* blue, very much like the *Cattleya* orchid. The upper petals contain two large purple magenta red spots, distinctly veined. An exceedingly beautiful and entirely new color in pelargoniums. This kind has a very robust growth.

QUEEN CHARLOTTE—Large crimped flowers, six to ten petals. Ground

color hermosa pink, with dark purple veined blotches, an unusually delicate coloring. Extra profuse in bloom; the large clusters unite in one gigantic bouquet. Quite a remontant in bloom. Extra fine.

PRINCE BISMARCK—Andenken an Furst Bismark.) Immensely large flowers, strongly crimped of fine shape, with from six to ten petals, color rich purple with velvety black blotches. Remarkably robust habit. The large clusters rise gracefully above the beautiful foliage. The blooming plant with its enormous flowers makes a striking impression.

WOLFGANG GOETHE—Florets large and slightly crimped, ground color, reddish carmine, with five well defined violet black spots. Robust grower.

Pelargonium Standard Sorts

MRS. LAYAL—The true pansy geranium. The coloring and marking of the flowers are most extraordinary; light pink, white, dark purple, black, etc., almost rivaling the pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium.

MAD VIBERT—A grand flower with black maroon blotches bordered fiery red, the flower entirely edged with rose.

SURPRISE—Large black blotches on upper petals, which have fiery red edge, surrounded with broad, white band with bright red spot in center.

EMMANUEL LIAS—Mottled rose and white, much crimped, vigorous.

MAD. THIBAUT—White, richly marked and blotched with rose, the upper petals marked crimson maroon with large white center; petals heavily ruffled, giving it a double appearance.

DOROTHY—Rosy salmon, dark maroon, blotches on upper petals; a free and early bloomer.

DR. MASTERS—Black blotches, margin rich crimson, lower petals small blotch.

MRS. ROBERT SANDIFORD — A charming pure white large flowering variety with ruffled edges and perfectly double.

LINDA—Fine variety, bold flowers of a clear salmon shade of a pleasing tint, feathered maroon in upper petals.

KING OF SPAIN—Reddish purple; fine bold flowers of grand form; lighter center. Good constitution. Very showy.

LORD MAYOR TRELOAR—Bright rosy red, a very effective maroon blotch in the upper petals. Large white center and lighter margins. Free flowering.

PRINCE OLAF—Orange scarlet, white center, large trusses.

GALATEA—Slightly fringed white, lightly marked or streaked pink. Rich blotch on upper petals. Robust habit.

GLORIOSA—An improvement on Kingston Beauty. Beautiful pearly white petals. Solid blotch on upper petals.

BRIDEGROOM—Rosy blush of very pleasing maroon shade. Beautifully crimped flowers. Dwarf and free.

DUKE OF CORNWALL — Gigantie well formed flowers of great substance, slightly crimped petals. Reddish crimson, each petal bordered light salmon. Splendid branching habit.

SWABIAN MAID

COUNTESS OF CREWE—Fine bold flowers of an attractive satiny rose shade. Petals beautifully crimped and of a thick leathery substance. Splendid sort.

VICTORIA—Lower petals carmine, upper petals dark mahogany, edged with straw-berry and carmine, large white center. Free flowering.

Geranium Novelties

DeWitt's Pedigree Set for 1912

GENERAL WAYNE—Seedling of S. A. Nutt crossed with Jean Oberle. Large semi-double flowers borne in large trusses, color rich carmine, foliage small. Habit and foliage like Jean Oberle. Stands bedding well.

AVIATOR RODGERS—Seedling of Mme. Landry crossed with Mme. L. Bisquit. Very large clusters of semi-double flowers. Color bright salmon. Habit very robust. Good as a pot plant or bedder.

DR. WILEY—Seedling of L'Aube crossed with Jean Oberle. Double florets, color darker pink than Oberle. Small foliage. Habit of growth ideal.

AVIATOR ATWOOD—Seedling of S. A. Nutt crossed with Jean Viaud. Very free in bloom. Stands the sun well. Semi-double flowers, medium sized foliage. Growth similar to Viaud. Color bright pink.

DeWitt's Pedigree Set for 1911

PANAMA—A cross between Dryden and Pamela. It is a very much improved Dryden, being a stronger grower and much brighter in color with distinct white markings in the upper pet-

als. Very free flowering. Single flowers.

BRIGHT EYES—A cross between Jules Lametre and Jean Viand. This is the most distinct yet offered in the Cyclops type. The flowers are large, color bright red shaded to violet with an unusually large white eye. Dwarf bushy growth. Single.

WHITE CLOUD—A cross between Mlle. Anastasie Lecadre and Pamela. Pure white form of Pamela which is well known as one of the best of the English round flowered type. Enormous trusses. Single.

RUBY—Seedling of S. A. Nutt crossed with Pamela. Beautiful, semi-double flowers on extra long stems. Large clusters. As free in bloom as S. A. Nutt and of similar habit of growth. Color dark currant red suffused with violet. Stands the sun well.

GENERAL WOOSTER—Seedling of S. A. Nutt and Jean Viaud. Plant of dwarf compact habit. Thick foliage. Enormous trusses, borne on heavy rigid stems. Color rose pink. As its parentage would indicate it is a good sort for pot plants or bedding out. Semi-double.

BARNABY RUDGE—Seedling of S. A. Nutt crossed with Red Wing Strong grower. Very free in bloom. Compact trusses. Double florets. Color rich carmine.

MRS. ANNIE VINCENT

WURTEMBURGIA

Bruant's 1909 Novelties

Single Varieties

ALBERA—Strong trusses held well above the foliage by long, solid stems; big flowers; fine malt white. Robust and stands all temperatures.

INTERNE BAZY—Plant robust; compact habit; good trusses; remarkable shade of aniline violet; very shiny; the upper petals have a darker border.

FRIVOLA—Large trusses, grand flowers of a delicate rose lilac, upper petals shading to white at center; good bloomer. Excellent plant for assortment.

ANTITHESE—Plant robust; floriferous; large round flowers; vermillion scarlet, with one large white spot on the upper petals; great contrast of colors.

LE PORTOU—The newest and prettiest variety, with a rare color; bluish violet; good umbles; lower petals brilliant violet; bordered red; upper petals red and violet, abundantly spotted fiery red. Intense and distinct in coloring.

Double Varieties

LEON RIOTOR—Plant of good habit and flowering abundantly; large, semi-double flowers, very open; fine shades of bright carmine, shading to brilliant rose; center white.

upright trusses; very good foliage; flowers semi-double; petals elegantly curled, fine rose, slightly shaded salmon; fresh and pretty color; good and free bloomer. Fine for bedding.

PIERRE COURTOIS—Remarkably abundant flower; very rich foliage, with large, elegant and open semi-double flowers, of 6-8 petals; velvety red purple, spotted light violet—a rare color among geraniums.

HOURLIER LENGLET—Plant robust; good foliage; umbels enormous; large flowers; vermillion red; very bright. Good for bedding, center or border; also for decoration.

SCÉVOLE—Large, umbels; long flower-stalks; semi-double flowers; clear rose, powdered rose carmine. Beautiful variety.

LYA BERGER—Good habit; robust; free flowering; large semi-double flowers; very open; a pretty shade of China rose.

JEUNESSE POITEVINE—Plant robust and easy growing; foliage middle size, with indented edge; good trusses, held well above the foliage; large flowers; a fine semi-double; color fiery salmon, a shade lighter and brighter than Beaute Poitevine. One of the best plants for ornamental use.

PIERRE VIERGE—Free flowering, plant low, easy grower; thick foliage; flowers round; center gold, with a white border, white eye; fresh coloring. Good variety.

CARJAN—Plant low and good foliage; trusses medium size but numerous, flowers large, flat very open, little double; very dark red, big white center, forming fine contrast of colors.

RED WING

BOHEMOS—Plant robust; compact habit; free flowering; fine trusses, semi-double flowers; elegant form; rich violet with velvety and fiery spots mixed.

ROSAFIERA—Compact habit; grand

PANAMA

Rozain-Boucharlat's 1909 Novelties

Single Varieties

MAURICE FARMAN—Round flowers; strawberry red, shading to purple.

STEPHEN PICHON—Velvety crimson purple, shading to scarlet carmine; white eye; feathered fire.

Double Varieties

VIGIE—Very grand flowers with large petals; clear cochineal red, center white, surrounded by purple.

semi-double; clear transparent crimson, shaded fuchsia purple, center aurora.

VICTORIEN SARDOU — Flowers

JULES CAMBON—Double flowers; dark currant red, shaded violet.

V. Lemoine's 1909 Varieties

Single Varieties

ALGERNON SWINBURNE — Plant dwarf and very floriferous; large, round flowers, orange scarlet color.

PIERRE LOUYS—Large trusses; grand flowers; clear rich aurora salmon color.

Double Varieties

BENJAMIN RABIER—Grand, large semi-double flowers; large trusses; rose mauve with carmine shading.

shading through a maculated effect to a pure white center; a handsome and striking variety.

ERNEST HEBERT—Very woody; enormous flowers; semi-double; rose white with a salmon veined center.

MME. MOSNAY—(Brt. 1906.) Beautiful shade of Geranium lake; upper petals shaded violet to a white center; flowers perfectly formed, freely produced in enormous trusses, on long rigid stems; foliage handsome, slightly zoned of heavy texture. Clean, strong, robust, healthy grower; should make a good bedder.

DRYDEN—Bright cochineal red, shading to pure white in center; very floriferous; exceptionally clean, healthy and vigorous; foliage slightly zoned.

PAMELA—(Cannell 1906.) Extremely handsome and distinct variety. Large white center with a shading through a maculated effect to a broad distinct outer margin of crimson lake. Flowers large and round; enormous trusses, freely produced. Unusually strong, vigorous grower for English round flowered sort; greatly admired.

Mlle ANASTASIA LECADRE—(Brt. 1906) One of the strongest growers we have in this class. Large trusses, freely produced; rich crimson carmine,

LECADRE

WHITE CLOUD

CLAIRE FRENOT—Plant robust and of good habit; excellent trusses, held well above the foliage; grand round flowers; nymphaea rose, shading Day-break, veined rose salmon. Can stand very inclement weather, making new growth well into the autumn.

L'AUBE—(Brt. 1895). Pure snow white, retaining its purity the entire season; large round florets; magnificent trusses. Its freedom of bloom, excellent habit of growth and ironclad constitution make it a most satisfactory variety either as a bedder or a pot plant. One of the best single whites.

MRS. E. G. HILL—(Brt. 1901.) A magnificent variety; enormous trusses of large florets; the center of each petal is a soft light salmon bordered with rosy salmon; habit exceptionally strong and vigorous; attractively zoned; semi-dwarf; stands the sun perfectly. An old favorite bedder and pot variety.

Standard Varieties--Double

S. A. NUTT—The very best of the dark crimson scarlet bedders. Always in heavy demand. We have a very large stock of it. Stands the sun perfectly, and is always a mass of bloom.

DAGATA—The finest bedder extant; the freest grower among free-flowering sorts that we have ever met; habit perfect; freedom, wonderful; attracts attention among a hundred other sorts. The color is bright, pure pink (an improvement on Fleur de Rose and Jean Viand) with large plume of white at base of upper petals; a most effective bedder, often throwing the sixth and seventh petal. Semi-double.

MRS. ANNIE VINCENT—Plants of robust growth, easy of multiplication; short growth and floriferous; foliage slightly crimped; large round flowers, supported boldly on unbending flower stalks above the very vigorous foliage. Flowers are grand semi-double. Exceptional resistance to inclement conditions. Color pure carmine, somewhat maculated white, with a freshness and brightness incomparable. The qualities of the growth correspond with the flowers, equalling in beauty the finest rose.

PRES. BAILLET—(Brt. 1906.) In President Baillet we have a prominent candidate for first place among the magnificent Bruant race, being a strong, robust, short jointed grower; large, dark zoned foliage; color bright scarlet.

MADAME LAPORTE BISQUIT

with a soft velvety finish, making a truly handsome Geranium. Large bold flowers and trusses, held well above the foliage.

M. ANATOLE ROSELEUR—(Brt. 1900.) A most beautiful shade of deep rose pink, rivaling in beauty and freshness the color of the Paul Neyron rose, a color that has been more admired than any Geranium we have on our place, and which we are confident will soon become the standard pink, superseding all others. The flowers are large, semi-double showing a distinct white center; enormous trusses, borne on long stems well above the clean extremely handsome foliage. In habit of growth it is most pleasing-dwarf, short jointed and vigorous, producing flowers at almost every joint. We unhesitatingly recommend it, as there is no question but that it will give satisfaction in every case; either as a pot plant or bedder.

ATLANTIS—Plant robust; stems rigid; trusses gigantic; flowers grand, produced freely; brilliant madder red. Useful for centers of vases, baskets, etc., or planting in arid places, as it is robust and its large trusses and brill-

iant coloring make it very effective. Semi-double.

LUIGI GRANDI—Good habit; under-laid foliage; grand trusses, held well above the foliage; blooming abundantly; violet carmine, shaded red on upper petals. One of the prettiest colors in our heavy wooded type. Semi-double.

ERNEST VERNET—Short stocky growth, the foliage resembling the Pelargoniums; grand flowers; enormous flowers and trusses; clear madder red, spotted lilac, veined scarlet. Beautiful Semi-double.

ELIACIN

ELIACIN—Has a good habit of growth, dwarf and compact, medium sized foliage, large trusses; semi-double flowers; bright mauve rose, shading lighter to white center. Has strong constitution, being able to stand all kinds of weather.

DUCHESSE DE CHAILLES—Enormous trusses, held well above the foliage; grand semi-double flowers; color pale rose, glazed mauve, striped white in a delicate style.

DOCTEUR DANJOU—A remarkable variety of magnificent color; intense violet; upper petals blotched white; very grand flowers; semi-double.

ALPHONSE RICARD—(Brt. 1894.) Large, semi-double flowers, often measuring two inches in diameter, borne in enormous trusses, on long flower stems. Continues in bloom the entire season.

JEAN VIAUD—Large semi-double rosy pink flowers with white eye. Blooms with uninterrupted freedom the entire season, and is of such rapid and vigorous habit of growth, that it makes one of the best all round plants obtainable.

LA FAVORITE—(Lem. 1888.) One of the finest double whites in this class; pure in color; flowers of enormous size; a continuous bloomer, the plant being covered with flowers the entire season; has beautiful foliage and finest habit. Unsurpassed as a white bedder.

COL. THOMAS—(Brt. 1906.) A most magnificent addition to the list of Mr. Bruant's introductions and one that is destined soon to rank among the highest grade of standard Geraniums. Distinct in color and exceptionally attractive, the color being a pleasing shade of deep cardinal red, apparently covered with a purplish sheen, deepening toward the center of the large well formed, handsome, semi-double flowers; the trusses are medium sized, but borne in the greatest profusion; habit dwarf, vigorous and branching. An easy variety to grow.

RED WING—Deep cardinal red, with a soft velvety sheen unusually attractive; semi-double flower, of good substance; large trusses as free as S. A. Nutt in bloom. Plant is robust, of strong growth and makes an ideal pot plant or bedder, as it stands the sun well; has no rival in its color.

JEAN OBERLE—(Brt. 1906.) One of the most beautiful among that color known as the peach-pink; an excellent shade of hydrangia pink, shading tenderly to almost pure white at the outer edges of each petal; the florets are especially well formed, just semi-double enough to be pleasing; the trusses are actually immense, often having over a hundred florets to the truss. The habit is exceptionally strong and vigorous; very free bloomer; foliage distinct, and one of the type that stands the sun perfectly; color of foliage dark green, with a slight chocolate zone. One of the best in this class and undoubtedly has a brilliant future.

MME. JAULIN—Semi-double. Very large florets compose a truss of grand size; center, tender pink, surrounded by border of white. For freshness and

beauty this color is without a parallel among the out-door bedding varieties, and is equally fine as a pot specimen.

MADAME LAPORTE BISQUIT—(Brit. 1906.) A very strong, vigorous, robust, semi-dwarf and compact grower. The foliage is large, handsome and deeply zoned; flowers large; trusses immense, and freely produced, color an exquisite shade of rich, light salmon rose, shading lighter to an almost white margin at the edge of petals. A variety which we are confident will win a place in popular favor.

MISS F. PERKINS—A charming shade of light pink with white throat; fine large florets and trusses held well above the foliage on erect foot stalks; clean healthy foliage, constant bloomer;

is a mass of color the entire season. Stands our climate well. Unsurpassed as a bedder.

BEAUTE POITEVINE—The best semi-double, salmon bedder, large flowers, aurora-pink shading to bright salmon.

DOUBLE DRYDEN—Coral white center, shading through a delicate lilac toward outer edge of the petals, which are a beautiful glowing soft crimson; an exquisite combination of colors; splendid as a fancy pot plant.

MME. LANDRY—A distinct salmon pink, with a slight shading of scarlet; habit semi-dwarf, vigorous; broad, heavy deep-zoned foliage. It has all the best points of a Bruant Geranium.

Variegated Foliage

SILVER-LEAVED S. A. NUTT—Green, edged white; very similar to Mme. Salleroi; much stronger grower; flowers large, produced in fine trusses; very free bloomer; color brilliant crimson scarlet.

MRS. POLLOCK—Beautiful tri-colored leaf; bright bronze, belted with crimson and edged with broad band of golden yellow.

WM. LANGGUTH—Double red flower, beautiful green and white foliage.

Standard Ivy-Leaved Varieties

DUKE OF EDINBURG—Foliage green with broad white margin; a free grower; pink flowers.

INCOMPARABLE —Trusses very large; florets of good form and full; color an exquisite shade of rosy carmine.

JOSEPH WARREN—Rich deep rose pink; large and handsome flowers; strong grower.

FELEGANTE—Double white flowers, large green margined white foliage. A grand variety for hanging baskets.

CAESAR FRANCK—An exquisite shade of rich soft crimson, coral veins on upper petals and center; magnificent double flowers, resembling in color a Crimson Rambler rose, only much brighter.

ALLIANCE—In 1905 when Mr. Le-moine introduced this variety he described it as a *Pelargonium Peltatum* Zonal "Alliance," signifying an affinity between the two types. A most exquisite shade of delicate lilac white, upper petals feathered and blotched bright crimson rose; an extraordinary variety, having all the good qualities that make up an attractive geranium. Semi-double flowers abundantly produced in large trusses; beautiful foliage being

of a splendid clean and leathery texture; excellent robust, strong, close-jointed. This Geranium includes the beautiful soft finish of the Ivy and the hardy constitution of the Zonal.

MME. THIBAUT—Beautiful rose pink; flowers large and round; magnificent trusses. A very effective variety.

PIERRE CROZY —Bright scarlet; dwarf, compact habit. A good bedding plant where a low bed is desired; appears to be a cross between an ivy and zonal.

RYCROFT'S SURPRISE—Bold, vigorous, upright habit; large trusses of a lovely shade of soft pink; free and effective.

CORDON'S GLORY —A profuse bloomer of an exquisite bright scarlet double flower, which is considered to be one of the best of this type; the plants display a continual profusion of bloom.

ACHIEVEMENT —Immense semi-double flowers of a distinct and pleasing shade of soft cerise pink, freely produced in large trusses; good habit and constitution, being a cross with a zonal; plants are luxuriant, healthy growers, blooming long and in prodigal profusion.
